Deck Oven

Model : RBDO-43

*One electrical connection for all decks per model

≡ FEATURES & BENEFITS ≡

■ **Microprocessor heating control**

A consecutive step by step control method with a microprocessor allows for heating control from 0~100% to enable even and precise temperature control.

■ **Heat distribution**

A heating system that enables even heat distribution inside the oven and heat retention help ensures even colorization of the product.

■ **Deck size**

- May have 2 tray, 3 tray, or 4 tray deck option
- Optional rack stand for baked bread.

■ **Steam injection & ceramic stone plate option**

With room temperature, high pressure steam at micron level, fine steam is evenly supplied to the bread surface.

■ **User-friendly display**

Time setting allows for desired time setting using arrow buttons

■ **Overheat protection sensor**

Once the unit is plugged in, protection sensors will set in to prevent serious burns.

■ **Safety enforced**

Each unit is thoughtfully designed with well-rounded corners for the benefit of bread bakers and chefs.

■ **Variety**

Perfect for variety of different bread types including cakes, pastries, and all other hard breads.
